PATIENT WELCOMING LETTER:

A warm welcome from our office. Thank you for choosing us to contribute to your dental health and well-being.

Our initial examination may take a little longer than you are accustomed to as we will not only check your teeth, gums and soft tissues, but we will look at how your facial muscles and your bite influence the health of your jaw joints. If you have current x-rays and/or tooth models at another dental office, it may help if you have them sent to us. If you have an extensive dental history, or if you anticipate some dental treatment, we ask you to **write a history of all your adult dental treatments.** Please indicate if you have root canals, have had orthodontics or other specialist care and any current or ongoing problems that are present.

When we have completed our diagnosis, you will be better informed about your oral health and more able to select the appropriate treatment from the options available to you. These options will be clearly outlined both verbally and in writing.

Please advise our office if you have any special needs and arrive ten minutes before your appointment to complete the necessary paperwork. Our office is dedicated to keeping you comfortable during and after treatment, honouring your appointment time and providing you with a clean and cheerful environment where strict infection control procedures are followed.

If you have dental insurance, we will do everything we can to help you obtain maximum benefits, however, we prefer our patients to pay for their treatment as services are rendered. A variety of payment options are available for your convenience.

Rest assured that your team takes special pride in the excellent dentistry that Dr. Nasedkin performs on a daily basis. You will find each one of us is committed to helping ensure that your care and comfort are always considered as we work together to achieve your dental health goals.

Sincerely, Dr. John Nasedkin and team
